It required an effort on the part of most persons to do even the lightest work. Those who had moderately cool and shady places stuck close to them all day, and, perhaps, pitied less fortunate persons who had to go forth and contend with the hot pavements, burning sun, and oppressive atmosphere of the streets.

It was a day to make a man think of his country relations; of rural rompings, pleasant groves, laughing streams, and milk and ice, and all the other joys and delights of country homes. Unless we are to have a change for the better very soon many of these city folks will be for one year for second offence of petit leaving at once on visits to cousins, uncles, and aunts, or, in default of such, be found seeking what is almost unattainable-decidedly cheap-board in the mounthat the Hygeia Hotel is densely packed, and guests are turned off every day. Old Point has been the favorite resort of our people this summer. Truly, the boatride down there is delightful.

The tide of travel is now turning with redoubled vigor towards the mountains, and whether the cost be big or small there are hundreds of families determined to evacuate Richmond. Ordinarily, this metropolis is a delightful place to reside at, but when the thermometer gets on its high pranks, and the winds "strike" and absolutely refuse to budge an inch, and a man of the city. lives under a flat tin-roof surrounded by balf a dozen sick, fretful children, and his neighbor keeps one or two noisy dogs and half a dozen tuneful cats, why, then, flight to the country becomes a necessity.

But, alas! there are thousands whose homes are not comfortable; whose children are sickly; whose nights are spent in misen, and whose days are days of toil and sweat, who have no hope of getting away from the city even for a week. The only relief We are advised that the New Jersey divi- they can possibly get is from a brief excurion, Pennsylvania railroad, is open for sion, and about the pleasantest reflection freight between Philadelphia and New York, they have is that this hot spell cannot last many weeks! The temperature is often over a hundred, while no thermometer can adequately indicate the heaviness and oppressiveness of the atmosphere. The Capitol is the coolest place in the

really ill, and several other people were very uncomfortably affected. The poor beasts of burden suffered horribly. It was pitiful to see them struggling up the steep and rugged hills, galled in many instances by badly-fitting harness, and oppressed with the heat and too heavy loads. Last night was a "scorcher," though at
